

# HD-iCam

## Introducing The Strauss Optiks Full HD 1080P Networked Surgical Camera

The Strauss Optiks HD-iCam combines a High Definition camera controller, complete e-documentation system, networking, streaming video over IP and a high powered LED light source into one compact package!

- Designed for all General Surgery, Orthopedic, ENT and Urology Applications.
- Allows browser based viewing of live surgical streaming video over its unique IP address from anywhere in the world including your iPad™ and Smartphones.
- Prints to any networked printer via browser.
- Save image files and videos to local USB device, onboard flash, an external hard drive, or any network location- even your office PC, laptop, or your own unique IP address!
